

Study Clubs

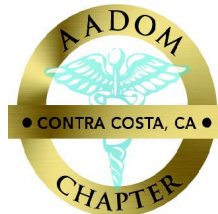

"A Group Dedicated to Advanced Implant Dentistry"

Partnership Study Club began as a group of professionals from all dental disciplines dedicated to success through growth and knowledge. Since its inception, it has been able to maintain its high quality education goals and standards without compromising the small group size, thus protecting the intimacy of our group discussions. The annual sessions meet once a month from September through the following May, including a fun family retreat. This study club is designed to create an effective and friendly educational environment that will improve our treatment planning and clinical skills with the goal to provide a higher level of care for our patients. Annual Open Enrollment begins in June. For more information, please contact Elaina at Elaina@dralijanian.com.

Spear Study Club is group of peers that meet locally up to eight times a year to collaborate on actual cases provided by Spear, improve their clinical expertise, and discuss growing practice profitability. For more information, please contact Katrece Raine, at Katrece@Centurionpracticecenter.com.

AADOM Contra Costa Chapter is committed to providing professional development and continuing education opportunities to Dental Office Managers and Administrative Professionals. As the only chapter in Contra Costa County recognized by the American Association of Dental Office Managers (AADOM), your practice will reap the valuable benefits from having your team member(s) join our elite group. Our members will help support, encourage, and learn while bridging professional support systems and friendships in the local dental community. Our goal is to create an interactive environment to share ideas, expand our leadership strengths, and enhance your team's expertise to help your practice grow. For more information, please contact Elaina at Elaina@dralijanian.com.

"Education is the foundation upon which we build our future."
~ Christine Gregoire ~
